The indie streaming pack

GENRE TAGS USED IN THE INDIE VENUE BIBLE

Yes, there are **hundreds** of genres of music. However, in order to make sure that each tag stands out, we had to **limit** the number of tags we used. The tags you see in the list below cover every known **style** of music from Ambient to Zydeco. You're in there somewhere.

Each genre tag is also used to identify **festivals** or **jams** featuring that style of music.

For example, the BLUES tag would also be used for BLUES JAM and BLUES FESTIVAL

Some genres are so closely related that we use the same color of tag.

For example R & B SOUL have the same color tags because although they are different genres, it's almost certain that any venue that features **Soul** artists will also welcome **R&B** artists.

Festivals have tags for each style of music that they feature. If there are too many styles to list, we use the tag VARIOUS STYLES FESTIVAL

WHAT IS REAL PROMOTION? WHY YOU NEED IT.

Real Promotion Means

- Relationships with music directors that are developed over many years.
- Actually calling and talking about the music.
- Selectively targeting the stations that are a right fit and accessible to new independent artists.
- Getting significant stations to listen. (They listen, because they trust us.)
- Real promotion now means digital singles and streaming.

"Best money I ever spent. I would go to Peter Hay anytime. He is dogged in getting airplay, and prompt and thorough with the reports."
-Dan Bern Singer/Songwriter

TWIN VISION

Is Real Promotion

"We're so happy with the results! I didn't expect to get this much radio play at all, and thank you for your hard work! ... this is a great list of places who liked our music and would possibly help us book and promote a gig in the future. We're planning to record our next EP this fall, so we will be trying this very same thing again in the spring of next year. I'd love to use your services again!"
