GENRE TAGS USED IN THE INDIE VENUE BIBLE

Yes, there are **hundreds** of genres of music. However, in order to make sure that each tag stands out, we had to **limit** the number of tags we used. The tags you see in the list below cover every known **style** of music from Ambient to Zydeco. You're in there somewhere.

Each genre tag is also used to identify **festivals** or **jams** featuring that style of music.

For example, the BLUES tag would also be used for BLUES JAM and BLUES FESTIVAL

Some genres are so closely related that we use the same color of tag.

For example R & B SOUL have the same color tags because although they are different genres, it's almost certain that any venue that features **Soul** artists will also welcome **R&B** artists.

Festivals have tags for each style of music that they feature. If there are too many styles to list, we use the tag VARIOUS STYLES FESTIVAL
