HOW TO USE THIS DIRECTORY

When you first look at the listings in The Indie Venue Bible, what seems like a thousand meaningless colors will flood your eyes and bounce off of your head. This is because each of the 28,000 listings has one or more GENRE TAGS.

Example:

Benton's Steak & Chop House http://www.bentonskc.com **JAZZ**

A GENRE TAG is a brightly colored-coded genre identifier. These tags were created so that you can quickly determine which venues feature your particular style of music.

Once you focus in on the GENRE TAG for your style of music, all the other colors will fade away into the background. Then, just like magic, you will only see the venues that feature your style of music.

After that you need only check out their website for booking information or give them a call to see if you can set up a show.

If you prefer to track down **booking agents** to help you land a gig, we have 2000 of them listed for you. Like venues, booking agents have their own unique identifier to make them easy to find in any area.

Example:

STLBlues http://www.stlblues.net **B O O K I N G BLUES JAZZ R&B**

GENRE TAGS USED IN THE INDIE VENUE BIBLE

Yes, there are **hundreds** of genres of music. However, in order to make sure that each tag stands out, we had to **limit** the number of tags we used. The tags you see in the list below cover every known **style** of music from Ambient to Zydeco. You're in there somewhere.

Each genre tag is also used to identify **festivals** or **jams** featuring that style of music.

For example, the BLUES tag would also be used for BLUES JAM and BLUES FESTIVAL

Some genres are so closely related that we use the same color of tag.

For example R & B SOUL have the same color tags because although they are different genres, it's almost certain that any venue that features **Soul** artists will also welcome **R&B** artists.

Festivals have tags for each style of music that they feature. If there are too many styles to list, we use the tag VARIOUS STYLES FESTIVAL

It's the same with **booking agents**. If there are too many genres to mention, the tag we use is B O O K I N G VARIOUS STYLES

Guaranteed Airplay On Internet Radio

Get played to millions of listeners who like your style of music

How It Works

1. Upload music and target the right listeners

Start by uploading your songs and photos. Next, choose the popular artists whose music is most similar to your own.

2. Get played on internet radio and collect fans

Your music plays on Jango and other radio sites, in stations featuring the popular artists you chose.

3. Get reports and data on your new fanbase

Radio Airplay artists get detailed reports on their new fan base, a great resource for getting to know your audience.

100 Free Spins to start and more Free Spins every week

Guaranteed Airplay On Internet Radio

Get played to millions of listeners who like your style of music

How It Works

1. Upload music and target the right listeners

Start by uploading your songs and photos. Next, choose the popular artists whose music is most similar to your own.

2. Get played on internet radio and collect fans

Your music plays on Jango and other radio sites, in stations featuring the popular artists you chose.

3. Get reports and data on your new fanbase

Radio Airplay artists get detailed reports on their new fan base, a great resource for getting to know your audience.

Right Touch Mastering.

World Class Mastering & Mixing With The Largest Array Of The Finest Analog & Digital Gear Available.

Mixing - How we do it

Your studio - or home recording will be mixed through 64 channels of the finest classic outboard analog compressors, equalizers, converters, and finally through our world-class mastering gear. The result? Three-dimensional, vibrant sound, and unparalleled separation between instruments. The highest resolution of sound, with the warmth of classic recordings we've all come to love. The mix in progress can be monitored through the real mastering process, not a plug-in that simulates mastering. The goal? Makingsure your music has the most impact. It's about representing your ultimate vision. Our mixing engineer, with major artist & multi-platinum credits, brings decades of mixing, arranging, producing, and mastering experience – into one mix session for stellar results.

Mastering - World-class mastering is within reach for the Independent Musician or Label

Each recording requires a unique mastering process. Whether it's tubes, transistors, vintage transformers, or the highest-resolution digital processing - what is needed is immediately available. The result? Breathtaking sound that translates on a portable player, car, or home system. With the gear and decision-making that's musical - not clinical - dynamics are kept intact, ear fatigue is non-existent, and the musical message comes through, play after play.

Our state-of-the-art hardware includes: Lavry Gold A/D-D/A Converters, 3 Weiss EQ's and Compressors, Apogee, Crane Song IBIS/Hedd/Avocet, Burl, Rupert Neve, 14 API EQ's and comps, Dangerous Music Master/Liaison/Mon ST, Shadow Hills Mastering, Thermionic Culture Phoenix, Chandler Curvebender, Manley, Little Devil EQ's/Comp, Cartec EQ's, Bricasti Reverb, Tonelux EQ's, Retro 176 comp., Aleysia, Moog, Empirical Distressors, Purple Audio EQ/Comp., Maag, Radial Komit EQ's, Pete's Place BAC500's, Universal 610, Sequoia 12 Mastering, Pro Tools HDX, Neumann & Genelec Studio Monitors. Custom High-Resolution cabling by Wireworld.

Great music deserves great masters.
The Gear, the Ear, and 40 years' experience,
making music that lasts.

Guaranteed Airplay On Internet Radio

Get played to millions of listeners who like your style of music

How It Works

1. Upload music and target the right listeners

Start by uploading your songs and photos. Next, choose the popular artists whose music is most similar to your own.

2. Get played on internet radio and collect fans

Your music plays on Jango and other radio sites, in stations featuring the popular artists you chose.

3. Get reports and data on your new fanbase

Radio Airplay artists get detailed reports on their new fan base, a great resource for getting to know your audience.
